TEN TIPS FOR FIRE SAFETY

1 Install smoke alarms on every level of your home, inside bedrooms and outside sleeping areas.

2 Test smoke alarms monthly. Replace batteries at least once a year.

3 Have a family fire escape plan and practice the plan twice a year.

4 If there's a fire in your home, get out, dial 911 and don't go back inside.

5 Keep matches and lighters out of children's reach

6 Use flashlights during power outages, not candles.

7 Never leave a burning candle unattended.

8 Turn off space heaters when you leave the room and don't leave them unattended.

9 Only use smoking materials outside.

10 Keep flammable items away from anything that can get hot, such as space heaters.
