Top 10 Water Safety Tips

1  **Always supervise children in and around the water**
Designate at least one adult to watch at all the times.

2 **Never swim alone**
Swimming is safer and more fun with a buddy!

3 **Don't dive or jump into water that you can't see through**
Obstacles like rocks and stumps may be hiding under the surface!

4 **Never turn your back to the ocean**
Big surf and strong riptides can come without warning.

Don't depend on floating toys to keep you safe

5
Inner tubes, water wings and other inflatables are not safe substitutes for life jackets.

6 **Children and non-swimmers should always wear life jackets in open water**
Life jackets only work if you wear them!

7 **Don't prolong the time you hold your breath underwater**
Holding your breath longer than necessary underwater can result in a loss of consciousness and lead to drowning.

8 **Swim only in designated swim areas**
Signs are posted for a reason; there may be hidden dangers in non-designated areas.

9 **Don't leave toys or other floatables in an unsupervised pool**
Floating toys may attract children.

10 **Learn to swim**
Visit THPRD.org to find swim lessons near you!
